When Using House PA/Monitors

- 4 monitor mixes
- Ac Guitar , Keys, Sax all run direct
- Mic as much of kit as possible
- SM58s or better for vox
- LH and GP-use own mics (EV 767s)

LYNDA

GREG P

← WIRELESS SAX has DIRECT out XLR

← ACOUSTIC GUITAR has PreAmp w/ XLR OUT

KEYBOARD DIRECT BOX

We have an IEM mixer rack with splits and 16 xlr out snake to tap into house system when feasible (preferred, but we can live with house monitors esp. in multiple band situations). If we have the time we'd like to use it, but realize it's not always possible.
